Editorials

985  The predictive value of serum 25-hydroxyvitamin D and dietary intake during adolescence: timing matters. S Shapses
See corresponding articles on pages 1025 and 1035.

987  Nutrition and hearing loss: a neglected cause and global health burden. SD Emmett and KP West Jr.
See corresponding articles on pages 1030 and 1167.

989  The need to differ between fluid retention and muscle mass. P Wabel
See corresponding article on page 1176.

Statistical Commentary

991  Best (but oft forgotten) practices: testing for treatment effects in randomized trials by separate analyses of changes from baseline in each group is a misleading approach. JM Bland and DG Altman

Original Research Communications

Obesity and eating disorders

995  Short-term variability in body weight predicts long-term weight gain. MR Lowe, EH Feig, SR Winter, and E Stice

1000  Validity of the WHO cutoffs for biologically implausible values of weight, height, and BMI in children and adolescents in NHANES from 1999 through 2012. DS Freedman, HG Lawman, AC Skinner, LC McGuire, DB Allison, and CL Ogden

Cardiovascular disease risk

1007  Egg consumption and risk of heart failure, myocardial infarction, and stroke: results from 2 prospective cohorts. SC Larsson, A Åkesson, and A Wolk

1014  Oral N-acetylcysteine reduces plasma homocysteine concentrations regardless of lipid or smoking status. W Hildebrandt, R Sauer, G Bonaterra, KA Dugi, L Edler, and R Kinscherf

Nutritional status, dietary intake, and body composition

1025  Does vitamin D status track through adolescence? MA Poopedi, SA Norris, LK Micklesfield, and JM Pettifor
See corresponding editorial on page 985.

1030  Latent iron deficiency at birth influences auditory neural maturation in late preterm and term infants. V Choudhury, SB Amin, A Agarwal, LM Srivastava, A Soni, and S Saluja
See corresponding editorial on page 987.

See corresponding editorial on page 985.

1044  Standardizing 25-hydroxyvitamin D values from the Canadian Health Measures Survey. K Sarafin, R Durazo-Arvizu, L Tian, KW Phinney, S Tai, JE Camara, J Merkel, E Green, CT Sembros, and SPJ Brooks

Energy and protein metabolism

1051  Time course of postprandial hepatic phosphorus metabolites in lean, obese, and type 2 diabetes patients. M Fritsch, C Koliaki, R Livingstone, E Phielix, A Bierwagen, M Meisinger, T Jelenik, K Strassburger, S Zimmermann, K Brockmann, C Wolff, J-H Hwang, J Szendroedi, and M Roden
Vitamins, minerals, and phytochemicals

1070 α-Tocopherol bioavailability is lower in adults with metabolic syndrome regardless of dairy fat co-ingestion: a randomized, double-blind, crossover trial. E Mah, TN Sapper, C Chtitcumroonchockchak, ML Fialla, KE Schill, SK Clinton, G Bobe, MG Traber, and RS Bruno

Pregnancy and lactation

1081 Tracking of 25-hydroxyvitamin D status during pregnancy: the importance of vitamin D supplementation. RJ Moon, SR Crozier, EM Dennison, JH Davies, SM Robinson, HM Inskip, KM Godfrey, C Cooper, and NC Harvey

1088 Vitamin D status is inversely associated with anemia and serum erythropoietin during pregnancy. CE Thomas, R Guillett, RA Queenen, EM Cooper, TR Kent, EK Pressman, FM Vermeylen, MS Roberson, and KO O'Brien

Growth, development, and pediatrics

1096 Effects on childhood body habitus of feeding large volumes of cow or formula milk compared with breastfeeding in the latter part of infancy. D Hopkins, CD Steer, K Northstone, and PM Emmett

1104 Associations of gestational glyceria and prepregnancy adiposity with offspring growth and adiposity in an Asian population. Ild Aris, SE Soh, MT Tint, SM Saw, VS Rajadurai, KM Godfrey, PD Gluckman, F Yap, YS Chong, and YS Lee

Digestive and liver diseases

1126 Selenium deficiency occurs in some patients with moderate-to-severe cirrhosis and can be corrected by administration of selenate but not selenomethionine: a randomized controlled trial. RF Burk, KE Hill, AK Motley, DW Byrne, and BK Norsworthy

Cancer

1134 Postdiagnostic intake of one-carbon nutrients and alcohol in relation to colorectal cancer survival. P Lochhead, R Nishihara, ZR Qian, K Mima, Y Cao, Y Sukawa, SA Kim, K Inamura, X Zhang, K Wu, E Giovannucci, JA Meyerhardt, AT Chan, CS Fuchs, and S Ogino

Alcohol

1158 Alcohol consumption and risk of cutaneous basal cell carcinoma in women and men: 3 prospective cohort studies. S Wu, W-Q Li, AA Qureshi, and E Cho

Nutritional epidemiology and public health

1167 Carotenoids, vitamin A, vitamin C, vitamin E, and folate and risk of self-reported hearing loss in women. SG Curhan, KM Stankovic, RD Eavey, M Wang, MJ Stampfer, and GC Curhan

See corresponding editorial on page 987.

1176 Omitting edema measurement: how much acute malnutrition are we missing? S Frison, F Checchi, and M Kerac

See corresponding editorial on page 989.

1182 Nutrient and food intakes in early life and risk of childhood fractures: a systematic review and meta-analysis. MN Håndel, BL Heitmann, and B Abrahamson

1196 Adherence to a Mediterranean diet, genetic susceptibility, and progression to advanced macular degeneration: a prospective cohort study. BMJ Merle, RE Silver, B Rosner, and JM Seddon
Prospective associations between vitamin D status, vitamin D–related gene polymorphisms, and risk of tobacco-related cancers. M Deschasaux, J-C Souberbielle, P Latino-Martel, A Sutton, N Chamaux, N Druene-Pecollo, P Galan, S Hercberg, S Le Clerc, E Kesse-Guyot, K Ezzedine, and M Touvier

Gluten consumption during late pregnancy and risk of celiac disease in the offspring: the TEDDY birth cohort. U Uusitalo, H-S Lee, CA Aronsson, J Yang, SM Virtanen, J Norris, and D Agardh for The Environmental Determinants of the Diabetes in the Young (TEDDY) study group

Characterizing eating patterns: a comparison of eating occasion definitions. RM Leech, A Worsley, A Timperio, and SA McNaughton

Efficacy of highly bioavailable zinc from fortified water: a randomized controlled trial in rural Beninese children. V Galetti, P Kujinga, CES Mitchikpe, C Zeder, F Tay, F Tossou, JD Hounhouigan, MB Zimmermann, and D Moretti

Gender perceptions predict sex differences in growth patterns of indigenous Guatemalan infants and young children. A Tumilowicz, J-P Habicht, G Pelto, and DL Pelletier

Serum retinol concentrations demonstrate high specificity after correcting for inflammation but questionable sensitivity compared with liver stores calculated from isotope dilution in determining vitamin A deficiency in Thai and Zambian children. DJ Suri, JP Tanumihardjo, BM Gannon, S Pinkaew, C Kaliwile, J Chileshe, and SA Tanumihardjo

Dihydrofolate reductase 19-bp deletion polymorphism modifies the association of folate status with memory in a cross-sectional multi-ethnic study of adults. D Philip, A Buch, D Moorthy, TM Scott, LD Parnell, C-Q Lai, JM Ordovas, J Selhub, IH Rosenberg, KL Tucker, and AM Troen

Making CMAM relevant in India: the letter and the spirit. R Dasgupta, V Yumnam, and S Ahuja

Reply to R Dasgupta et al. S Burza, R Mahajan, E Marino, T Sunyoto, P Mathew, G Duqué, and N Salse
