Tate & Lyle  
Unilever North America

Ideas for ASN’s Sustaining Partners?
The Sustaining Partners are represented in the Society by a Sustaining Partner Roundtable. The members of this roundtable help to provide visibility within ASN to matters of interest to industry.

Interested in Adding Your Support to the Society?
Your unrestricted contribution is used to support programs and awards that help the association fulfill its mission: to be the leading nutrition research society dedicated to improving the health of individuals and populations worldwide.

HIGH IMPACT

The most highly rated peer-reviewed, primary research journal in the Thomson Reuters Journal of Citation Reports (JCR) nutrition and dietetics category, The American Journal of Clinical Nutrition (AJCN) publishes the latest research on topics in nutrition, such as obesity, vitamins and minerals, nutrition and disease, and energy metabolism. The AJCN was selected by the Special Libraries Association (SLA) as one of the top 100 most influential journals in Biology and Medicine over the last 100 years—the only nutrition journal to be so recognized.

Every year, the award-winning AJCN is at the top of important rankings of journals in the field, including those for best value, most influence, and highest Impact Factor among primary research journals. Articles published in AJCN are read by researchers, government leaders, and other decision makers in the public health industry and are used by health professionals around the world in the formulation of health policies, guidelines, and recommendations.

Making A Difference. Findings published in AJCN regularly provide vital supporting evidence for guidelines, reports, and recommendations issued by governments, foundations, and professional organizations. For example, information in AJCN underpins:

- the new US Department of Agriculture’s Dietary Guidelines for Americans.
- World Health Organization (WHO) recommendations in the areas of chronic diseases, child health, HIV/AIDS, women’s health, and more.
- UNICEF reports on global efforts to eliminate malnutrition and nutrient deficiencies.
- Pan American Health Organization reports on pressing health issues.
- systematic reviews of healthcare and health policy of The Cochrane Collaboration.
- position and consensus statements of professional and scientific societies such as the Academy of Nutrition and Dietetics; NAASO, The Obesity Society, and the American Diabetes Association.
The American Society for Nutrition (ASN) is a dynamic home for physicians who are interested in nutrition and related medical disciplines. ASN has nearly 5,000 members, joined together to increase the role of nutrition in medical education, practice and research. One way ASN accomplishes this goal is by providing a unique combination of experiences to physician members.

MEMBERSHIP BENEFITS FOR PHYSICIANS

• 12 months of membership for only $190
• Access ASN’s three leading journals that focus on preventive, therapeutic, international and community-based nutrition science and translational models
• Reduced registration rates for ASN’s Scientific Sessions and the Advances & Controversies in Clinical Nutrition conference
• Medical Nutrition News e-newsletter
• Breaking news and information on employment, grant, scholarship and internship opportunities
• Multimedia resources including podcasts, author videos, recorded webinars, videotaped lectures, blog entries and more.
• Eligibility for awards like the Samuel J. Fomon Young Physician Award, which is given for outstanding work in the area of pediatric nutrition.
