Editorials

1 Nutrition in early life and cognitive functioning. AD Stein
See corresponding article on page 122.

3 Vitamin D supplementation and risk of infectious disease: no easy answers.
CA Camargo Jr and JE Manson
See corresponding article on page 156.

Original Research Communications

Obesity and eating disorders

5 Association between prenatal polychlorinated biphenyl exposure and obesity development at ages 5 and 7 y: a prospective cohort study of 656 children from the Faroe Islands. JL Tang-Péronard, BL Heitmann, HR Andersen, U Steuernwald, P Grandjean, P Weihe, and TK Jensen

14 Effects of anti-obesity drugs, diet, and exercise on weight-loss maintenance after a very-low-calorie diet or low-calorie diet: a systematic review and meta-analysis of randomized controlled trials. K Johansson, M Neovius, and E Hemmingsson

24 Effects of acute and longer-term dietary restriction on upper gut motility, hormone, appetite, and energy-intake responses to duodenal lipid in lean and obese men. RV Seimon, P Taylor, TJ Little, M Noakes, S Standfield, PM Clifton, M Horowitz, and C Feinle-Bisset

35 Health effect of the New Nordic Diet in adults with increased waist circumference: a 6-mo randomized controlled trial. SK Poulsen, A Due, AB Jordy, B Kiens, KD Stark, S Stender, C Holst, A Astrup, and TM Larsen

Lipids

46 Specific plasma lipid classes and phospholipid fatty acids indicative of dairy food consumption associate with insulin sensitivity. PJ Nestel, N Straznicky, NA Mellett, G Wong, DP De Souza, DL Tull, CK Barlow, MT Grima, and PJ Meikle

54 Dietary medium-chain triglyceride supplementation has no effect on apolipoprotein B-48 and apolipoprotein B-100 kinetics in insulin-resistant men. AJ Tremblay, B Lamarche, M-É Labonté, M-C Lépine, V Lemelin, and P Couture

Nutritional status, dietary intake, and body composition

62 Branched-chain amino acid requirements for enterally fed term neonates in the first month of life. F de Groof, L Huang, I van Vliet, GJ Voortman, H Schierbeek, LCW Roksnoer, A Vermes, C Chen, Y Huang, and JB van Goudoever

71 Energy requirements in nonobese men and women: results from CALERIE. LM Redman, WE Kraus, M Bhapkar, SK Das, SB Racette, CK Martin, L Fontana, WW Wong, SB Roberts, and E Ravussin, for the CALERIE Study Group

Carbohydrate metabolism and diabetes

Energy and protein metabolism

86 Myofibrillar muscle protein synthesis rates subsequent to a meal in response to increasing doses of whey protein at rest and after resistance exercise. OC Witard, SR Jackman, L Breen, K Smith, A Selty, and KD Tipton

Vitamins, minerals, and phytochemicals

96 Biomarker responses to folic acid intervention in healthy adults: a meta-analysis of randomized controlled trials. ME Duffy, L Hoey, CF Hughes, JJ Strain, A Rankin, OW Souverein, C Dullemeijer, R Collings, L Hooper, and H McNulty

107 Intake and serum concentrations of α-tocopherol in relation to fractures in elderly women and men: 2 cohort studies. K Michaelsson, A Wolk, L Byberg, J Åmlöv, and H Melhus
Pregnancy and lactation

Maternal prepregnancy obesity and insulin treatment during pregnancy are independently associated with delayed lactogenesis in women with recent gestational diabetes mellitus. SL Matias, KG Dewey, CP Quesenberry Jr, and EP Gunderson

Growth, development, and pediatrics

Supplemental feeding during pregnancy compared with maternal supplementation during lactation does not affect schooling and cognitive development through late adolescence. H Alderman, S Hawkesworth, M Lundberg, A Tasneem, H Mark, and SE Moore

See corresponding editorial on page 1.

Nutritional support

The use of linear programming to determine whether a formulated complementary food product can ensure adequate nutrients for 6- to 11-month-old Cambodian infants. JKH Škau, T Bunthang, C Chamnan, FT Wieringa, MA Dijkstra, N Roos, and EL Ferguson

Cancer

Aging

Antioxidant vitamins and magnesium and the risk of hearing loss in the US general population. Y-H Choi, JM Miller, KL Tucker, H Hu, and SK Park

Nutritional epidemiology and public health

Effect of vitamin D supplementation on antibiotic use: a randomized controlled trial. B Tran, BK Armstrong, PR Ebeling, DR English, MG Kimlin, JC van der Pols, A Venn, V Gebski, DC Whiteman, PM Webb, and RE Neale

See corresponding editorial on page 3.

The association of fast food consumption with poor dietary outcomes and obesity among children: is it the fast food or the remainder of the diet? JM Poti, KJ Duffey, and BM Popkin

A systematic review and meta-analysis of dietary patterns and depression in community-dwelling adults. JS Lai, S Hiles, A Bisquera, AJ Hure, M McEvoy, and J Attia

International nutrition

Linear growth increased in young children in an urban slum of Haiti: a randomized controlled trial of a lipid-based nutrient supplement. LL Iannotti, SJL Dulience, J Green, S Joseph, J Francois, M-L Antinor, C Lesorgol, C Mounce, and NM Nickerson

Letters to the Editor

Effects of excess dietary fructose on liver pathology study have significant methodologic limitations. KN Litwak and S Levin

Reply to KN Litwak and S Levin. K Kavanagh, AT Wylie, KL Tucker, TJ Hamp, RZ Gharaiheb, AA Fodor, and JM Cullen

Study examining effects of poor nutrition during pregnancy and lactation in a primate lacks translatability. KN Litwak and S Levin

Reply to KN Litwak and S Levin. K Keenan, TQ Bartlett, M Niland, NR Zürcher, and PW Nathanielisz

Belief beyond the evidence: using the proposed effect of breakfast on obesity to show 2 practices that distort scientific evidence. RA Mekary and E Giovannucci
Reply to RA Mekary and E Giovannucci. AW Brown, MM Bohan Brown, and DB Allison

With Appreciation

Supplement—Regulation of Growth and Metabolism through Amino Acid Sensing

- Role of amino acid transporters in amino acid sensing. PM Taylor
- Control of the translational machinery by amino acids. CG Proud
- Integration of signals generated by nutrients, hormones, and exercise in skeletal muscle. SR Kimball
